Chief Executive Message

It's a great pleasure for me to welcome you for education at White Rose School System. I believe the era we are living the rule SURVIVAL OF THE FITTEST exactly applies. This rule of universe has always been right. It is the need of time for our Nation as a whole to realize this fact. As parents it must be our modest and desired duty to look after our children's education on daily basis because great things do not happen overnight.

We must be watchful, the time we are spending as each second or a day never repeats itself. These days it is very easy to waste time due to so called entertainment activities which take us very far from our ultimate goals of life. Our children can not realize this. They are too young to understand this. It is our responsibility to create a balance in their lives. If we let them on their own or ignore them they may ruin themselves and their future. In my opinion if we take too long to realize this fact, we would never forgive ourselves. These days we as a Nation need to compete the world to get an honorable recognition on the Globe. This could only happen through quality education and continuous hard work.

Zahid M. Ahmad

Moving from where your child is to where he wants to be is a series of carefully chosen steps. Going forward is the aim, and your child's momentum increases as he gains knowledge, skills and confidence. White Rose School System will help your child to discover that he is the greatest resource of himself.

We are doing everything to enable our students to meet the challenges of rapidly changing world for last 25 years. At white Rose School System along with highly educated and motivated Staff. We are all committed to build our Nation's future bright and it is not a single person's job it is a team work. I congratulate my whole team completing Silver Jubilee for serving the nation. You as parent must be confident that your child is in safe hands of educational professionals, who are very much competent to full fill the educational and moral upbringing of your loved one. We look forward to play a part in your child's future and wish him every success in the career path he chooses to follow.

ALLAH takes care all of us !

Mission Statement

It is very easy to explain importance of education. No human beings are able to survive properly without education. By the means of education only one's potential can be used to maximum extent. Education tells us how to think, how to work properly, how to make decision. Through education only one can make separate identity. It is most important in life like our basic needs foods, clothes and shelter. With the beginning we learn how to interact with others, how to make friends because of education only.

We may be highly educated, but if we are without meaningful combination of thoughts and feelings, our lives are incomplete and clashing. Education develops a meaningful outlook on life.

The individuals are different but to accentuate the differences and to encourage the development of a definite type education is must.

Education is not just a matter of training the mind. Training makes for efficiency, but it does not bring about completeness. Knowledge and efficiency are necessary, which brings up by education

Education should help us to discover lasting values; unfortunately, the present system of education is making us submissive, emotionless and deeply thoughtless.

Systems, whether educational or political, are not changed without explanation; they are transformed when there is a fundamental change in ourselves. The individual is of first importance, not the system; and as long as the individual does not understand the total process of himself, no system can bring order and peace to the world. At White Rose School System we with our highly educated team of Directors and staff have devoted their self to deliver meaningful education to our students. As education is not only an information but formation.

About Us

We take great pleasure in welcoming you to White Rose School System. We have created an exciting environment for teaching and learning along with our highly qualified faculty and a proven system of student support services.

White Rose School System has been specially introduced for the peculiar conditions existing in Pakistan where most of the people educated from schools can read and write but can't cope with the challenging situation prevailing in the country and the world. It differs in purpose, scope and method from other educational institutions in the country.

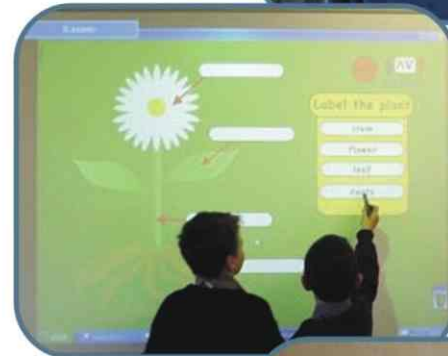

White Rose School System strives to deliver the best quality teaching and learning services and facilities. We also aim to ensure that all students can learn at a pace and to the level that best matches their needs and aspirations.

White Rose School System has furnished with audio-visual equipments, fully equipped science laboratories and computer labs. It's our great responsibility to look after our children's religious education as well. For this purpose, Nazra Quran is being taught and established Hifz ul Quran departments in all campuses.

Parent's Portal at website and SMS system has been introduced to speed up flow of student's educational progress on daily basis.

In order to ensure students' health a comprehensive medical examination is carried out by an experienced Physician twice a year. Your choice where your children should study one of the most important decisions you will ever make.

At White Rose School System you can be sure of education that meets the highest academic standards and of high quality personalized tuition, we warmly invite you to join White Rose School System.

Facilities

Purpose-built school buildings, each catering to the demands/requirements of the students. All buildings have large spacious classrooms and windows. The Primary and Secondary buildings are furnished with green areas/atriums within the school building which are open to the sky and therefore, allow cross ventilation, airiness and natural light to illuminate the passages and the classrooms. Every classroom has been refurbished to provide our students with new desks and color full class rooms.

Clinic

Our doctor provides basic medical aid to any student. She also maintains computerized medical record and keeps a check on any risk of the spread of infectious diseases (e.g. mumps, influenza etc.). The WRSS doctor also conducts health workshops for students, faculty, staff and parents regarding personal hygiene, infections, diseases, common ailments etc.

Student Counseling

WRSS has introduced a Student Counselor and psychologist to cater for any emotional problems or learning difficulties that the students may face during their crucial journey towards adulthood.

Library

WRSS has a well-stocked library for the students, staff and alumni. The Library has recently been upgraded with new collection of reading materials and computer systems with internet facility.

Computer Rooms

Campuses are equipped with latest computer lab with internet facility for the students.

Play area

There are wide play areas specially designed for children.

Security

A number of security measures have been implemented with respect to the safety and security of students.

Raised height of boundary walls and restrictions on illegal gate openings

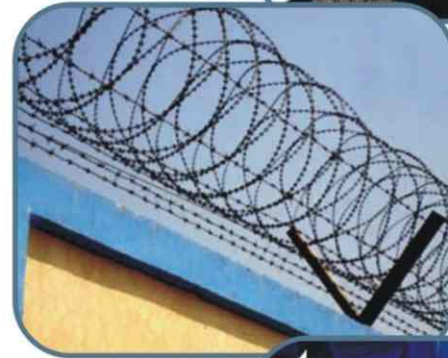

Installation of CCTV system and security cameras for electronic surveillance of all entry and exit points.

Increased number of armed/unarmed security guards at the gates.

No student is permitted to exit from school during school hours at any circumstances expect the approval of the management.

At the time of admission details are taken about the pickup of child after school. If a different person comes to pick up the child management takes up the matter collect data from computer and contact parents and ask for the identification of the person and after satisfaction the child is allowed to go with the person.

Plan for the movement of vans and private cars, marking of parking areas, pick and drop points for students of vans and private cars and waiting areas for parents and drivers. Guards are bound to stay alert until all the students leave the schools premises safely.
